**Subject:** RE: Late Clothianidin Comment

Hi Steve,

As it turns out, the agency received comments requesting an additional public comment period due to recent time constraints and delays. For this reason, the agency is re-opening the public comment period for an additional 30-days from the date of announcement. That announcement is set to publish on May 19, 2020. Could you formalize this comment by submitting MGK's comments during this new comment period?

Please let me know if you have any other questions,

Best,

Matt

**Subject:** Late Clothianidin Comment

Hi Matthew,

I am submitting a late comment on the registration review of clothianidin. The comments address the use of clothianidin in poultry houses. We would appreciate your consideration of these comments as you finalize the Interim Decision.

Best regards,

Steve
